

## Mrs. Finn's Classroom Discipline Policy

With my guidance our classroom rules will be constructed our first week of school. I have found that in the past, if the students have a stake in making the rules, they will respect the rules. Basically our rules will be to provide a safe, fair, quiet learning environment for everyone. I will send a list of our classroom rules home after our class has compiled them.

I have no reservations on making a phone call to a parent if your child is unruly or not respecting others. I ask for your support. I have found that with open lines of communication between the school personnel and family, most problems are dealt with swiftly and fairly. If the problem persists I will refer your child to our principal.
